JAMZ is a collection of 15 full-length solos written in contemporary styles. These memorable melodies are set in funk, hip-hop, rock, funk ballad, shuffle and gospel grooves. Some pieces were written expressly for this collection, some for previous recording projects, and some are derived from big band charts I have composed for the Kendor catalog. Appropriate for individual use or in private lessons, these pieces can be played unaccompanied or with the provided backing tracks recorded by excellent studio musicians. The only thing missing is you!

If used in a private instruction setting, it is always productive for teachers to play the piece for the student first so they can model your technique, interpretation and expression. I truly hope you have as much fun playing these tunes as I had while composing and arranging them!
